Subject: WV DEP Request for letter

John,

Did Scott Mandirola ever send a request for the letter in writing? ORC is asking me to verify exactly what question we are answering. The question I think we are trying to answer is if the MCHM material, being dewatered and disposed of in a MSW landfill, is a hazardous waste or just a solid waste.

Does that question seem to line up with what Scott asked you to answer?

If not, we may need to get a request in writing so that we know exactly the question we are asking.

Rick
